

Ardee Educate Together N.S. R.S.E. Policy

School Philosophy

Ardee Educate Together N.S. school is managed by a Board of Management, elected according to the procedures agreed by the Partners in Education. The school has a Educate Together ethos and this ethos is a guiding principle in the formulation and implementation of this R.S.E. Policy. This ethos recognises the value and dignity of each pupil and all those working in the school community, and aims at promoting the full and harmonious development of all aspects of the person, including:

- a) relationship with family
- b) relationship with teachers
- c) relationship with self
- d) relationship with others
- e) relationship with the environment.

This ethos also acknowledges the multi-cultural and ethical values of all the pupils attending the school. The school recognises that the parents are the primary educators of their children and we support them in that role.

In the area of R.S.E., above all, the schools' role is subsidiary to that of the parents. We support and compliment their work.

Definition of R.S.E.

R.S.E. is an integral part of Social, Personal and Health Education and must be taught in this context. It provides structured opportunities for pupils to acquire knowledge and understanding of human sexuality and relationships through processes, which will enable them to form values and establish behaviours within a moral, spiritual and social framework. (p. 5 NCCA curriculum and guidelines for R.S.E.). R.S.E. is the formal approach to educating children in:

- Relationships with others - parents, siblings, friends and the community in general
- Respect for themselves and others
- Physical development - bodily functions and changes, and personal hygiene
- Emotional development - maturing in society
- Parenting, personal and social skills and relationships
- Sexuality in context - part of a loving relationship.

Relationship of R.S.E. to S.P.H.E.

Social, Personal and Health Education contributes to developing the work of the school in promoting the health and well-being of children and young people. This happens in the context of their emotional, moral, social and spiritual growth, as well as their intellectual, physical, political, religious and creative development.

The key characteristics of this programme are that S.P.H.E. is a lifelong process and is a shared responsibility among family, school, health professionals and the community. The main strands of the S.P.H.E. programme are:

- Myself
- Myself and Others
- Myself and the Wider World

It is clear that the Relationships and Sexuality Programme is correctly defined as being an integral part of the programme outlined above. Sexually sensitive issues will be covered within the strand units:

- Taking care of my body
- Growing and changing
- Safety and protection.

Current Provision

We are a child-centred school. The educational and emotional needs of the children in our care are central to our planning and policy making processes. We will always continue to put the welfare of the children first.

Included in the school curriculum in Ardee Educate Together N.S. is:

- S.P.H.E.
- Stay Safe Programme
- R.S.E. Programme

Policies which support S.P.H.E.

Code of behaviour and discipline policy

- Headlice Policy
- Anti-Bullying Policy
- Child protection policy
- Enrolment Policy
- Mobile phone policy
- Healthy Eating Policy
- Internet Safety Policy
- Administration of Medicines Policy.

In keeping with the sentiment and spirit of these policies, we informally support many of the aims on which R.S.E. is modelled. We encourage good behaviour, open communication, understanding and tolerance of differences, and respect for self and others. We recognise that both pupils and staff have rights and responsibilities in our school. A sense of responsibility is fostered and attention is paid to the well being of all of the members of the school community.

Aims of our R.S.E. programme

When due account is taken of intrinsic abilities and varying circumstances, the Relationships and Sexuality Education curriculum should enable the child to:

- Develop a positive sense of self-awareness, self-esteem and self-worth
- Develop an appreciation of the dignity, uniqueness and well-being of others
- Understand the nature, growth and development of relationships within families, in friendships and in wider contexts
- Develop an awareness of differing family patterns
- Come to value family life and appreciate the responsibilities of parenthood
- Develop strategies to make decisions, solve problems and implement actions in various personal, social and health contexts
- Become aware of the variety of ways in which individuals grow, change and understand that their developing sexuality is an important aspect of self-identity
- Develop personal skills, which will help to establish and sustain healthy personal relationships
- Develop some coping strategies to protect themselves and others from various forms of abuse
- Acquire and improve skills of communication and social interaction
- Acquire and use an appropriate vocabulary to discuss feelings, sexuality, growth and development
- Develop a critical understanding of external influences on lifestyles and decision making.

Guidelines for the Management and Organisation of R.S.E. in our School

Curriculum Matters

The curriculum as published by the NCCA will be followed. All content objectives will be covered by the time each pupil leaves 6th class. The curriculum will be taught from Infants to 6th class. It will be taught by the teaching staff. Occasionally it may be deemed necessary for an outside speaker to address the "sexually sensitive issues" i.e. puberty, reproductive system, conception, birth and sexual intercourse. R.S.E. on the 6th Class curriculum. All resources used will be in keeping with the ethos of the school and this policy.

Organisational Matters

- It is a parents/guardians right to withdraw a pupil from these lessons. This request for withdrawal must be made in writing.
- If parents/guardians request the withdrawal of a child from R.S.E. lessons, provision will be made for them to leave the classroom at that time. Supervision will be provided. With regard to matters of a confidential nature, the school cannot take any responsibility for what is discussed in the yard or classroom. Should a child who is withdrawn from the sexually sensitive classes receive inappropriate information from others outside of these classes, it will be the responsibility of the parent/guardian to address the issues.
- Parents are welcome to view the curriculum and may speak to the class teacher if they have any concerns.

Dealing with Questions

It is natural that children should wish to ask questions in the area or R.S.E.. However, this area is treated somewhat differently from other subjects due to its sensitive nature.

All questions answered will reflect the parameters of the curriculum. Questions to the teacher may be written or oral within the group setting and answered within the boundaries of the curriculum and school policy. If any questions asked by the children are judged to be inappropriate, the teacher will refer the child to their parents, or state that this information may be available at a later stage of the curriculum. The school cannot guarantee confidentiality if a child asks a question of a personal nature or discloses personal information.

At all times the child's and teacher's right to privacy will be maintained

Parental Involvement

Parents/Guardians are the primary educators of their children and as such the school supports them in this role. As stated parents/guardians will be given the option of withdrawing their child from a particular lesson if they so wish. The PTA may on occasion arrange for speakers/meetings to help them in the task of communicating with their children on aspects of their development. Parents/Guardians may access copies of the policy from the school office.

Resources

Lesson plans from the DES have been assessed and amended where necessary in line with this school policy. These lessons plans are available in the S.P.H.E. press for each class grouping. The Stay safe programme, and a selection of other appropriate resources will also be used. All resources are available for parents/guardians to view if they so request prior to the delivery of the lesson.

Provision for Ongoing Support

- Funding will be sought for the provision of suitable materials when deemed necessary.
- Opportunities provided by our Education centre will be brought to the attention of staff members. C.P.D. will be availed for staff when required, or as requested .

Review

This policy will be reviewed periodically. This policy will also be reviewed should the need arise.

R.S.E. - Sensitive Areas

Junior Infants

New Life - mention of baby in the womb.

Senior Infants

My Body - specific names for male and female sex organs - vagina, penis, womb.

First Class

New Life - New baby. Baby joined to mother by umbilical cord - mention breast feeding.

Second Class

Birth of baby through vagina. Mention umbilical cord and breast feeding.

Third Class

As for second class, but in more detail.

Fourth Class

Language around baby's development in womb, i.e. fertilised egg, cord. Pictures of foetuses (in R.S.E. manual) to be used.

Fifth and Sixth Classes

Menstruation in the context of hygiene and growth from a girl to a woman.

Boys and girls development - puberty.

How does new life begin? (6th class only)

Biological facts as follows: (6th class only)

What journey does the egg make?

What journey does the sperm make?

Where do they meet?

What happens when they meet?

Sixth class - Busy Bodies.
