

## Seeking a Home Tutor for the In-person Supplementary Programme?

The In-person Supplementary Programme to Support the Education and/or Care Needs of Pupils with Complex Needs scheme is a temporary measure during this period of school closure, in February 2021. The four-week programme (20 hours) can commence from 11 February and can be used by families at any time up until the end of April.

These hours supplement existing school provision provided remotely, therefore they cannot be delivered during the school day. They can however be delivered outside of the normal school day and/or at weekends if necessary.

School Management will identify eligible children and bring the scheme to the attention of parents of eligible pupils. Where parents wish to participate in the scheme, schools will complete Part 1 of the Grant Claim Form and provide it to parents. School Management will make every effort to support parents in securing the services of a teacher or SNA who is known to the school.

In the event that a teacher/SNA could not be secured through the school to support your child the following list of websites may be of assistance to you.

It is important for parents or guardians to satisfy themselves on the appropriateness of potential home tutors, including their Garda vetting status.
